

MARCH EVENTS YTH 2026

March gives you lots of time to paddle around in the sea of infinite possibility as Mercury reclines in Pisces, retrograde until 21st March. All retrogrades are in water in 2026. And this is the perfect month to go with the flow in order to get to where you truly want to be.

Eclipse season always offers emotional healing and a sense of release. But just remember to make allowances for the Eclipse handover after the Total Lunar Eclipse on 3rd in Virgo.

Neptune isn't there to absorb the shift having moved into the focused honesty of Aries. But Mars makes an agreeable symmetry by being in Pisces. This adds some touchy feely compassion, rather than railroading those who aren't completely decided about moving on.

Time and Saturn in Aries are what waits for no man! So, use up your Mars 'deep contemplation' credits by grounding concrete commitments in a 'doable' time frame before St Patrick's Day. Venus' square with Jupiter will remind us all the value of personal vision. Moreover, the focus needed to dream and do what it takes to build a fresh rather than continue to fight against more of the same.

If you feel confused, or, are falling behind your deadlines in March, then, ask the New Moon in Pisces for insight. This is a moment when spoon fed realities begin to stall in their relevance and resonance. And although Pisces is seen to be passive, this is a turning point month where what is discovered cannot be unseen. Neptune and Saturn have teamed up to show just how much is coming together. And their joint fortitude will fuel the collective courage, to continue to ride the wave of Pisces personal transformation.
